WORKSHOP #6  
Team Performance Kryptonite

## Assessments, Exercises, & Coaching

### 5 Voices Assessment

The 5 Voices Assessment will give you a break down of every team member's voice, how they will perform at their best and how they will be affected by stress.

### Team Performance Assessment

Imagine having the ability for every team member to assess their communication, relational dynamics, alignment, the team's ability to execute and overall capacity in an autonomous way. The results allow you to benchmark and track performance for every team.

### Personal and Team Exercises

We use the best of Artificial Intelligence and the 5 Voices to create immediate application of all of the learning during the 5 Voices for Teams sessions to ensure each person has a chance to reflect and grow from their learning.

### Add-On: Leader Intensives

A full-day deep-dive with a key leader to help them understand their own leadership tendencies and create a growth plan for the future.

## Insights & Continuous Learning

### GiANT OS Pro CLP

In the OS PRO we provide you the tools to track the 5 Voices assessments, assign learning actions and have a directory to understand how to interact with each person across the organization.
